# LEARNING USING GROWTH MODELS

helping people with their  
**THINKING**

**GOAL**

The Lifelong Learning **role** is to help learners clarify the **GOAL**

**REALITY**

**LIFELONG LEARNING ROLE**  
The Lifelong Learning **role** is to help learners **understand** what is happening now and gain **INSIGHTS**

**OPTIONS**

The Lifelong Learning **role** is to help learners find out what is **POSSIBLE**

**LIFELONG LEARNING ROLE**

★ generate →   
★ assess →

Generate options

- How could you make that happen
- What else could you try?
- What else...?

Assess options

- What is the best / worst thing about that?
- Pros and cons?

Only offer your ideas after you have encouraged learners to come up with their own

**WAY FWD**

The Lifelong Learning role is to help learners find a **WAY FORWARD** and commit to a **plan of action**

- Which option do you think will work best?
- What is the next step?
- What will you do? When?
- What might get in the way? How might you overcome that?
- What support might you need?
- How might we follow up?

Ask questions to help determine:

- What issue/area does the learners want to focus on
- What does the learner want to achieve

Ask questions to:

- Clarify the current situation
- Determine the current impact
- Determine future implications
- Invite self assessment

**START**

Let learners tell their story

What is the **IDEAL** outcome?

# LEARNERS ARE...

**Orientated**

Are able to clearly understand how what they are learning will help them to achieve their own goals

**Valued**

Can see a reason for learning something that they can then apply to their work or social life

**Connected**

Are able to connect what they are currently learning with their own life experience

**Interested**

Are interested in what they are learning, not learning just for the sake of it

**Involved**

Are actively involved in their learning and learn things that reflect their own interest

**Respected**

Are treated as equals and their knowledge and experience is acknowledged.
