

#You Choose – A participatory Budgeting model for choice and change in Moray

tsiMORAY's Health and Wellbeing Team will present the approach we take to participatory budgeting (PB) in Moray through #You Choose. We will describe how we work with partners and stakeholders from three themes: drugs and alcohol, mental health and older people. We will present success and learning from each theme, and invite workshop participants to consider key challenges and opportunities in relation to rurality, accessibility, inclusion and change. Together, we will look to the future of PB in marginal and rural communities and consider how digital engagement could be a 'game-changer' going forward.
