

Animal Detectives

Animals can be quite shy and difficult to see but they leave clues about what they have been doing and where they have been. Become a detective....

crumbly earth puddings and leaf plugs...

Sticking up out of the lawn... worms were up and about last night

cherry stones and hazel nuts with nibble marks

Voles and mice must have been there

strange cylinder shaped droppings on the lawn full of shiny beetle wings and ants. Was a hedgehog about last night?

leaves with holes were they made by slugs...

caterpillars or birds? Can you find out?

... slimy trail - follow it... can you find the snail or slug that made it?
